WORK EXPERIENCE

Frontend Developer

Accenture Portugal

Nov 2022 - Present

- I developed a mobile app using React Native and worked on the backend using NestJS. I also teamed up on a project in the banking sector, focusing on AngularJS, where I played a key role in building the frontend. Additionally, I collaborated on training an AI with regex to enhance its ability to detect and respond to unsafe messages.

Curricular Internship

Direção-Geral dos Estabelecimentos Escolares

Mar 2020 - Aug 2020

- I designed and developed a dynamic web application for a school information management system.

Curricular Internship

Direção-Geral dos Estabelecimentos Escolares

Feb 2018 - Jul 2018

- I designed and developed an internal messaging application for team collaboration. Additionally, I played a key role in configuring and installing Office 365, offering crucial helpdesk support for troubleshooting and resolving issues. I also managed the installation and configuration of Windows machines for team members.
